

# Plant A Seed Showcase Day

You are the Hero!! You have saved the day!!

Thank you to each and every teacher who took the time and effort to plant seeds into your class. For planting the seed of teamwork, you have helped to grow and develop the plant of Leadership... for helping your class to work on a community service project, you have fostered the plant of Empathy and Leadership...for helping them to create a school store, you have helped to foster the plant of Financial Literacy...For helping them to create a Family Crest and Identity Trees, you have fostered the seed of Value!!

All of these seeds will grow and encourage them as they meet new challenges in life. They will remember that they had success in your class and they will work to achieve their goals and become overcomers!!

*And this may be just why difficulties take precedence over possibilities in our lives. I once knew a man who called himself a "possibilitarian" –meaning one who sees the possibilities rather than the impossibilities.*

*Dr. Norman Vincent Peale · 2007 The Tough-Minded Optimist - Page 160*
