The image shows the front cover of a journal. The cover is decorated with a repeating floral pattern of pink, purple, and white flowers with green leaves on a white background. A central, light brown, oval-shaped label with a dotted border contains the title. The left edge of the cover has a solid magenta spine, and the right edge has a solid light green spine.

MY 90-DAY JOURNAL

MONTH 1:

MONTH 2:

MONTH 3:

A Note from D'vorah

This journal is from Jayme's new Digital Journal Template Bundle, which includes commercial use rights. Her main template includes 12 monthly sections and hyperlinks to pages for each day of the year. This journal is a 90-day daily journal.

Enjoy this sample digital journal! This is an example of just one of the many things you can create in digital planner / journal format. I transformed a plain, black & white journal into what you see here. The possibilities are endless! She even includes amazing hacks & tips.

Important Note: Digital planners and journals are NOT designed to be printed out! They can be read as an Adobe PDF, where you'll be able to experience how the hyperlinked tabs work. The primary way that people use digital journals and planners is by importing them into an iPad or tablet app, such as GoodNotes or Noteshef. View the following page for instructions.

If you'd like to be able to create digital journals from gorgeous templates, be sure to check out Jayme's template bundle. Head over to check out the the peek inside video and slideshow.

Tips On How to Use Your Digital Planner/Notebook/Journal

ShareYourBrilliance.Etsy.com

1

THANK YOU FOR YOUR ORDER!

PERSONAL USE LICENCE

Thank you for your purchase of a Share Your Brilliance Digital Planner. **This planner is for your Personal Use and may Not be resold** or used for any other commercial use. If you have any questions or are interested in purchasing digital planners with commercial use rights, please feel free to contact us at ShareYourBrilliance.com

WHAT IS DIGITAL PLANNING?

A **digital planner** is just like traditional paper planners, but instead of being in paper format that you print out or purchase as a physical product, your digital planner is designed to view on your iPad or tablet, using a note-taking app.

These interactive PDF planners contain **hyperlinked tabs** that make navigating through your planner quick and easy. By just clicking on the planner's tabs, the pages flip for you, just like you would use a paper planner with dividers.

2

WHAT TOOLS DO YOU NEED?

DIGITAL PLANNING TOOLS

Digital Planners are compatible with both **Apple** and **Android** devices. So, the tools depend on which one you have.

iOS APPLE

- iPad Tablets
- A stylus to write, such as the Apple Pencil
- Note-Taking App: Goodnotes + Noteshell Apps
- Digital Planner PDF

ANDROID

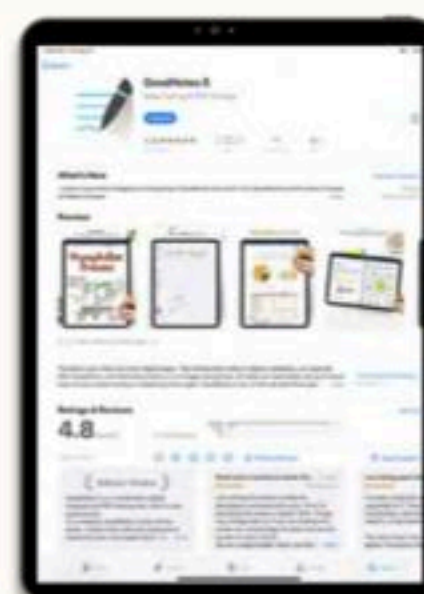

- Android Tablets
- Stylus to be able to write in your planner
- Note-Taking App: I recommend the Noteshell App
- Digital Planner PDF

3

CHOOSING A NOTE-TAKING APP

BUY THE APP AND DOWNLOAD IT

GOODNOTES

NOTESHELL

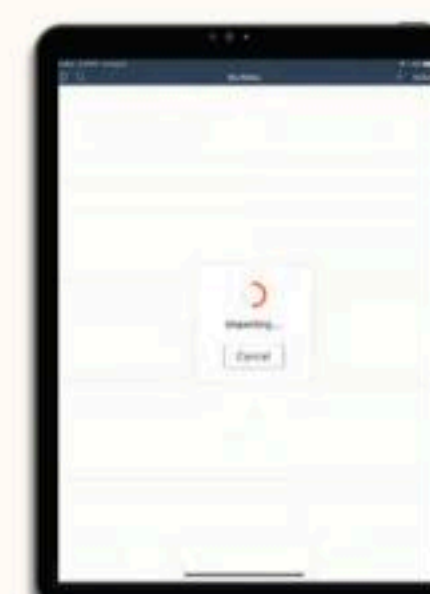

- If you are using an Apple Device, I would recommend using the Goodnotes or Noteshell Apps.
- For Android Tablets, I would recommend the Noteshell App.
- Once you choose one, purchase it from your devices APP store and install it. Make sure it is updated.

4

HOW TO IMPORT INTO NOTESHELL - FOR IPAD

IMPORTING A DIGITAL PLANNER

- After downloading the PDF file following **Step 5**, the planner will open in the Safari browser of your iPad as gogetsy.com.
- Click on the **Share** button on the top right corner.
- You might have to scroll and select **Copy to Noteshell**.
- Then, it will open in Noteshell and start importing.
- If a message appears, click on **Create New**.
- Once it finishes, you are ready to use your planner!

HOW TO USE THE NOTESHELL APP FOR IOS & ANDROID

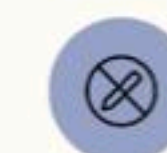

HOW TO CLICK THE TABS AND WRITE

Note: The following instructions apply when the option **Disable hyperlinks when writing** is selected. You can find this option by going to the settings section of Noteshell and selecting Advanced.

CLICK ON THE TABS

- For the tabs to work, you need to be in the **Read-Only Mode** in Noteshell. The pencil icon should look like the icon above.
- This mode lets you navigate through your pages comfortably while blocking all other inputs, like the pen, highlighter, and eraser.

WRITE ON THE PLANNER

- To be able to write on your planner, you need to **deselect the Read-Only Mode** in Noteshell by selecting any of the writing tools. So, the pencil icon should look like the icon above.
- The writing tools are: pen, eraser, highlighter, and text.
