TIC TAC TEN

Materials:

- One D10 (10-sided die)
- Two different colors (markers, crayons, or pencils)

Instructions

- On your turn, roll the D10.
- Write the number anywhere on the board.
- As the game continues, watch for numbers that touch (vertically, horizontally, or diagonally).
- When two or more touching numbers add up to 10, circle them in your color.
- Play until there is no more spaces, then count up the number of 10s each person made.

Variations

- Tic Tac Twenty: Use a D20 and circle groups that add up to 20.
- Make 5: Use a D4 and try to create groups that add up to 5.
- To give more writing room, use big square graph paper.
