

# Body Type Sort

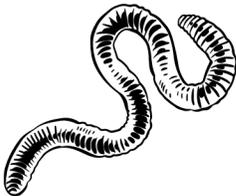

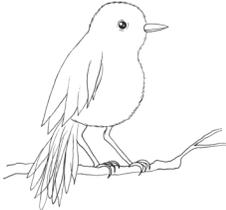

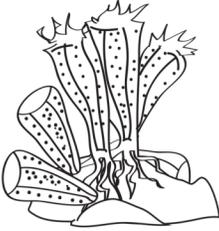

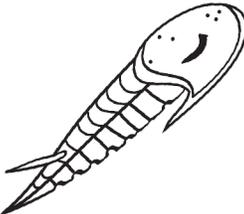

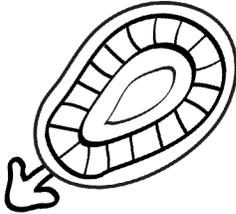

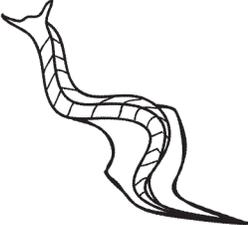

**Soft Bodied**

**Endoskeleton**

**Exoskeleton**

# Answer Key

Softbodied	Exoskeleton	Endoskeleton
		
		
		
		

I found conflicting information on whether Pikaia (bottom right) had a technical skeleton, but I do want learners to connect that it was one of the first creatures with something like a spinal column (it had a notocord)

Prehistoric pictures were from: The Painted Crow
