Add a Focal Point

WILD CARD

Paint or draw directly over an area of your page to create a brand-new center of attention — or glue down a piece of collage, washi tape, or a cutout.

Break the Border

WILD CARD

Let one shape, line, or doodle push outside the lines or margins.

Thicken the Lines

WILD CARD

Choose a few shapes and add weight to their outlines.

Paint or Scribble Over a Section

WILD CARD

Pick one space and cover it — paint, marker, collage — then start fresh on top.

Repeat a Motif

WILD CARD

Pick your favorite doodle from this page and sneak it in at least 3 more times.

Blur the Lines

WILD CARD

Smudge, blend, or soften a few edges. Let them fade.

Frame It

WILD CARD

Add a border — dashed, decorated, scribbled, or boxed in.

Cut & Flip

WILD CARD

Cut out one section and flip it upside down — glue it back in or re-doodle around it.

Add a Message

WILD CARD

Write in or collage meaningful words or phrases.

Splatter Something

WILD CARD

Dip your brush or pen and flick it across the page. Big drops, tiny dots — chaos is welcome.

Add Shadows or Shading

WILD CARD

Choose a shape or section and add depth — use crosshatching, pencil, smudging, or marker.

Collage a Surprise

WILD CARD

Glue something unexpected on top: a photo scrap, a word, a shape from another page.

Use a New Texture Tool

WILD CARD

Pick up a crayon, pastel, toothbrush, or your finger — and mark one space differently.

Drip It Down

WILD CARD

Add a drop of water, ink, or paint and let it drip or bleed down the page.

Darken the Background

WILD CARD

Choose one section and fill in the background completely black (or very dark).
