

AI TRUST Leadership Certificate Program

Core Takeaways

Module 2 – TRUST Framework Foundation

Key Takeaways

- AI is following the same dangerous trajectory cyber took 20 years ago—**unless leaders intervene early**.
- Delegation without oversight leads to **paralysis, inefficiency, and enterprise-level harm**.
- TRUST converts global legal standards and technical complexity into **board-usable governance steps**.
- Strong AI governance is not a brake on innovation—it is the **fastest path to sustained value**.
-
