

**BEFORE I START**

*I think making a sharp edge on soap will be:*

- Very easy
- Medium difficulty
- Very hard and takes a lot of patience

**DRAW MY TOOL**

Draw your finished soap tool. Label the sharp edge and explain what it could be used for in the real world.

*Draw here*

**REFLECTION**

The hardest part of shaping my tool was \_\_\_\_\_.

---

Early humans used stone tools for \_\_\_\_\_, \_\_\_\_\_, and \_\_\_\_\_.

---

Making a tool requires \_\_\_\_\_ and \_\_\_\_\_.

---

**I LEARNED THAT**

The earliest stone tools are called \_\_\_\_\_ tools.

---

Homo \_\_\_\_\_ was the first hominin known to use fire.

---

Cooked food releases more \_\_\_\_\_ and may have helped our brains grow.

---
