

Lesson 19: The Great Dying

Create a pie graph for what percentage of species went extinct during the Great Dying.

Land Species

Ocean Species

Lesson 19: The Great Dying

Create a cause-and-effect chain for the Great Dying. For each step, write one sentence explaining what happened or create a drawing.

The diagram consists of six empty rectangular boxes arranged vertically. Each box is connected to the one below it by a downward-pointing arrow. The top box has a vertical line extending from its bottom center to the top of the second box, which then turns into an arrowhead pointing down. This pattern repeats for all subsequent boxes, creating a continuous downward flow.
